

Introduced by Senator Escutia

February 24, 2006

An act to amend Section 66738 of the Education Code, relating to public postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

SB 1769, as introduced, Escutia. Public postsecondary education: systemwide articulation agreements.

(1) Existing law establishes the University of California, under the administration of the Regents of the University of California, the California State University, under the administration of the Trustees of the California State University, and the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as the 3 segments of public postsecondary education in this state. Existing law, the Donahoe Higher Education Act, sets forth the missions and functions of each of these 3 segments.

An existing provision of the Donahoe Higher Education Act expresses the intent of the Legislature that the transfer function shall be a central institutional priority of all segments of postsecondary education and that the segments shall have as a fundamental policy and practice the maintenance of an effective transfer system. An existing provision of the act requires the governing boards of the 3 public postsecondary education segments to be accountable for the development and implementation of formal systemwide articulation agreements and transfer agreement programs, including those for general education or a transfer core curriculum, and other appropriate procedures to support and enhance the transfer function.

This bill would add a provision to the act to require that, on or before January 1, 2008, the governing boards of each of the public

postsecondary education segments shall enter into formal systemwide course articulation agreements that enable students to transfer units freely between and among each of the public colleges and universities in this state. To the extent that the requirements in this bill would create new duties for community college districts, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.
